MINING, BUSINESS AND STOCKS

CHICAGOAN IS AN OPTIMIST

. W. McKinnon Sees Light Ahead for Industrial and Mining Enterprises.

PREDICTS ELECTION OF TAFT.

Copper Will Sell Higher-Thinks Copper Securities Have Been Fully Discounted.

R. W. McKinnon of Chicago, who A associated with the firm of Logan & Bryan brokers, is in the city today or his way to the Pacific coast on a brief | East Crown Point

Mr. McKinnon says conditions are rapidly arighting themselves in the cast, and, as compared to what they were a few months ago, there is a material improvement. "Right after the conventions of the two great national parties," he said, "I look to see a return to normal conditions again. People have generally made up their minds as to the nomination and election of William H. Taft to the presidency and what they seem to be walting for now is what the platform will contain.

"Take the country as a whole," continued Mr. McKinnon, "it was really never in better condition. The banks have plenty of money and, as I-say, as soon as the political line-up is settled, they are going to let it out for investment in various enterprises. With a return of the old-time confidence, you will see an improvement in the a return of the old-time confidence, you will see an improvement in the copper market; railroad companies will electrify their lines, and I venture the prediction that within the next five years, every railroad entering Chicago will pull its trains into the city by means of electrical power. You know what that means towards increasing a demand for the metal. There is not very much available copper at the present time in this country, or in Europe, so the situation as far as copper is concerned, in my opinion, is very bright. As far as copper securities are concerned, I feel satisfied that they have been more than discounted for all the bad and will improve. I de not anticipate a radical change in tot anticipate a radical change in ne copper market right away, but would rather expect a gradual ad-

NEW ALASKA CAMP.

Nolan Creek the Scene of Some Recent Rich Placer Finds.

Seattle, Wash., April 16.—A special from Fairbanks to the Post Intelligencer says that word has been received there that the two men who made the recent strike on Nolan creek in the Koyukuk have panned \$30,000 already and that they only took the pans from bedrock, the gravel going to build up a big dump to be washed up in the spring.

on Wiseman creek a similar wash has been found and if the men now at work strike as rich pay as found on Nolan creek, another big camp will spring up in Alaska in Alaska.

BULL VALLEY IS LAND OF PROMISE

Merrill Kalb Says It Is Sure to Develop Into a Big Gold Producing Region.

NEVADANS ARE COMING IN.

About Forty Prospectors In Camp-Mineralized Area Is Ex-

Merrill Kalb of St. George and an associate of H. H. Clark and Dr. L. E. Benson, the well known Nevada mining operators, has arrived in the city with sack full of samplese from the Bull Valley mining district in the northwestern part of Washington county.

Mr. Kalb is an enthusiast over Bull valley and to a 'News' representative today expressed the firm belief that it would develop into one of the most productive gold regions in the west. Mr. Kalb has with him ore that fairly sparkles with gold, selected samples of which would assay well up into the thousands of dollars.

"I have been out prospecting," said

which would assay well up into the thousands of dollars.

"I have been out prospecting," said Mr. Kalb, with Dr. Benson and Mr. Clark, and we have located between 30 and 40 claims and on them have discovered no less than 12 ledges. As soon as I get the samples brought in with me assayed we will determine just where development work will be done. It is our intention to begin a very vigorous campaign immediately, and we are well enough satisfied to go ahead and spend our own money. The location of Buil Valley is about 38 miles south of Modena and 35 miles from Acoma on the Salt Lake Route. The citizens of the district have contributed time and money towards the building of about seven miles of road to connect with the one used by the Utah & Eastern Copper company between Acoma and the mine and smelter near St. George. This is a very good route into the district, Mr. Kalb says, and will probably be more popular than the one out to Modena on account of the grades. A number of properties have changed hands within the past week, one group having been bonded for \$25,000. George F. Scranton, auditor of the Studebaker company, for \$3,000 has purchased a one-third interest in the Golden Eagle claim, Wood and water is plentiful and all things considered, the location is ideal for a good mining camp.

WILL SHIP ORE SOON.

all things considered ideal for a good mining camp.

WILL SHIP ORE SOON.

A private letter received from the Stateline mining district today conveyed the information that leasers working in the Ophir property are sacking ore for shipment.

NO CONTEST LIKELY.

Control of U. S. Company Will Probably Remain As It Is.

ably Remain As It Is.

(Pollock Special Wire.)
Chicago, April 1.6—A leading interest in the United States Smelting & Refining company says: "I do not believe there will be any contest for control of the United States Smelting & Refining Co. Nobody is dissatisfied except Robert D. Evans and probably a few of his friends. There are only four directors to be elected this year and should Mr. Evans control the meeting and elect all four directors of his own choice, this would give him a majority vote on the board. Although there are \$80,000 shares, actual control rests in the board of directors. As the board is divided, however, the \$40,000 odd shares controlled by the directors are pretty evenly distributed in point of stock ownership between the Evans and the management literates. ership between the Evans and the man-agement interests. It is estimated that 50,000 shares of stock, principally pre-ferred, are held abroad.

"John Hayes Hammond, who is available to the United States Co., has severed all connection with the Guggenheims and has recovered his health."

MAY LIST STOCK

Bonnie Brier May Be Called on Local Exchange Soon.

It is said that recent developments

It is said that recent developments made on the Bonnie Brier property in Big Cottonwood canyon have been of such an encouraging character that it is proposed to list the stock on the local mining exchange.

Some months ago Mr. Robert and Smith Graham, two young men from Canada, who had made considerable in the coal business there, came to Salt Lake and decided to make their residence here. They became interested in mining and in looking around ran across this property which conran across this property which consists of eight claims. A company was formed and a little stock sold, but the brothers kept the control and put ur money to carry on the development work. ent work.

A shaft is sunk 14 feet where three

feet of ore was encountered a few days ago which runs well in silver, lead, and iron. A tunnel has also been run for 200 feet, and work is to be pushed to the utmost.

ANSWER OF SILVER KING.

Admits Extraction of Ore from Conkling and Arthur Claims.

The Siliver King Coalition Mines company has filed its answer in the suit brought by N. Treweek and J. Leonard Burch in the federal court. The plaintiffs alleged trespass and wrongful extraction of ore from the Conkling and Arthur claims in the Park City district.

Park City district.

"The defendant admits," the answer recites. "that beneath the surface of the Conkling and Arthur claims is a lode or veln of rock in place, bearing sliver, lead and other minerals, which on its course or strike extends through the length of said claims; but alleges that no part of the top or apex of said lode or vein is found anywhere within the boundaries, extended down vertically, of said claims, but that the apex is found in certain other claims owned by the defendant.

"The defendant denies that it has at

"The defendant denies that it has at any time mined or removed from within the boundaries of said claims 10,000

tons of ore of the value of \$400,000, and to the contrary alleges that all of the ores hitherto mined or removed by the defendant does not exceed 990 tons of all grades and classes, and further alleges that the value of all the ore mined by the defendant, after deducting therefrom the reasonable and necessary cost of mining and disposing of said ores, does not exceed the sum of \$20,047.50."

Then the Silver King company asks that it be given credit for the cost of "discovery and development" of the ores in the Conkling and Arthur, which it appraises in the sum of \$72,500. It avers that all of the ore removed from the ground in question was taken from a distance of 50 feet on the vein, eastward from the wasterly line of the Conkling claim, and that none was taken from the Arthur claim.

The defense denies that the plaintiffs have been denied admission to the workings below the surface of the claims in controversy.

claims in controversy,

ELY'S BIG PAY ROLL.

What Mining and Smelting Companies Disburse Monthly.

Disburse Monthly.

While Ely cannot as yet claim to be financially one of the greatest camps in the world, each month brings the era of such prosperity closer, says the White Pine News. During last week there were pay days with most of the companies in the district. According to approximate estimates, actual figures being unobtainable in some cases, more than \$100,000 were distributed among the workers of the district. Some of the companies pay during the present week and will add more to this total.

The sum total of the big pay roll will without doubt prove amazing to such as there may be in the district with complaint concerning alleged business duliness. The payrolls of last week were for the month of March and the April payroll, with the rapid increase in working forces evident at the various properties, will without doubt be largely in excess of that of last month. What the completion of the concentrating plant of the Steptoe reduction works a number of additional men will be placed at work there, while general activity about the mines of the district leads to belief that the end of April will see a marked increase in every direction.

The estimated payroll of the district totals \$115,000 in round numbers and includes practically every company now working.

Segregation of the total among the mines is made with the following re-

Segregation of the total among the nines is made with the following result:
At the Steptoe smelter, \$50,000; Nevada Northern railroad, \$20,000; Cumberland Ely, \$24,000; Copper Flat workers, \$5,000; Giroux Consolidated, \$7,000; Ely Witch, \$3.500; Boston Ely, \$3,500; Nevada United, \$5,000; Miscellaneous, \$5,000; total \$115,000.

The figures given above are conserva-tive and include only the mining in-terests of the district, the industrials, with the exception of the Nevada Northern, which pays off on the 18th, not being placed on the list.

It is probable that with the industrial interests of the section, including the electric light, water, telephone and townsite companies, the amount would easily be increased by another \$20,000.

ONTARIO DRAIN TUNNEL.

A message from Park City today conveyed the information that the water in Ontario No. 2 shaft had receded to a point 26 feet below the 1,400 level and that while the pressure is less, the water is lowering at the rate of 4½ feet a day.

NEVADA DOUGLAS MEETING.

Shareholders Will Authorize a Bond Issue Today.

A special meeting of shareholders of Nevada Douglas Copper is being held this afternoon in the offices of the company in the Auerbach block, the purpose of which is to ratify the action of the board of directors in authorizing a \$600,000 bond issue, the same to run five years and to bear interest at the rate of 6 per cent; with the privilege of conversion into stock at the rate of \$7.50 a share any time prior to three years. years.

The company has planned to provide

The company has planned to provide the mine with equipment for the treatment of ore on the ground and the placing of these bonds will provide ample funds to carry out the project. In the meantime, development work continues at a rapid pace and with highly gratifying results.

The annual meeting of shareholders The annual meeting of shareholders is scheduled to occur on May 4.

DESERET NEWS ********

HIGHER PRICES WERE THE RULE

Transactions Were Not Heavy While the Changes Noted Were Rather Small.

RAILROADS VERY PROMINENT.

U. S. Steel Purchased in Large Blocks -Coppers, Sugar and Westinghouse Made Good Gains.

New York, April 16.-Stocks were sold at higher prices at the outset today than the closing last night. Changes were small and transactions light, Union Pacific and Interborough Metropolitan preferred rose a point and American Ice %. Vir rinla Iron sold at a decline of 5. Most of the limited orders in the hands of the brokers were purchased especially

of the brokers were purchased especially for the low priced specialties, which have been so prominent in the week's business. Very little alteration from the opening prices resulted from the active stocks and the trend was upward. Colorado & Southern hardened I, the preferred 1%.

The tone of the market remained firm but prices were little changed. Canadian Pacific and Third Avenue rose 2 and Manhattan 4. Wheeling and Lake Erie first preferred declined 2%.

Bonds were firm.

In the noon hour there was a slight increase in the volume of business and higher prices prevailed. The railroad stocks figured to a larger extent in the dealings than this morning. There were purchases of large blocks of United States Steel. Union Pacific gained 1%. Northern Pacific, Amalgamated Copper, American Smelting, American Sugar and Westinghouse Electric, 1. National Lead and Western Union lost 1.

The market closed rather irregular and duil. There was slight profit taking late in the day, but reactions were slight.
